# SAVE NOW WITH

## PAYING NOW = DISCOUNTED FEES FOR OFFICE VISITS AND SERVICES

Our SureCare program is available to patients who either do not have insurance or request that we not bill their insurance company. By paying at the time of your SureCare visit, you will receive a discount on the cost of the visit and/or services. You are informed in advance of the cost of any additional services your Primary Care Practitioner may recommend, such as laboratory or radiology, allowing you to choose whether to receive those services.

### HOW MUCH CAN I SAVE IF I PAY NOW?

The discounted basic or comprehensive office visit fee is quoted to you at the time you schedule your appointment. If you need other services beyond the basic visit, such as laboratory tests, radiology tests (X-rays, etc.) or office surgeries (stitches, etc.), we offer a discount, if you pay for them at the end of your visit.

Examples of conditions treated at a basic visit are things that generally end after an expected period of time, such as urinary tract infections, head colds, sprains, etc. Examples of comprehensive visits are chronic conditions and multiple-care concerns.

### HOW DOES IT WORK?

When making your appointment, be sure to tell our scheduling department you want a SureCare visit. We will let you know the discounted fee for the visit, based on your visit request. You are required

to pay this amount at registration when you arrive for your SureCare visit.

At your visit, follow these steps:

1. Check in with our receptionist, and pay the discounted office visit charge, which is based on the condition for which you are being seen.
2. The receptionist will give you a Fee Ticket listing the cost of additional lab, radiology or other services that your Primary Care Practitioner may need to order.
3. Visit with your Primary Care Practitioner, who will discuss your medical needs. He or she may recommend additional services, such as labs and/or radiology.
4. Decide if you want these additional services and if so, accept the services. Your Fee Ticket will be marked by the department providing the service.
5. Once you have completed your visit and additional services (if any), return the Fee Ticket to the receptionist, who will determine the total cost for any additional services you received.
6. Pay your bill. If you pay your bill before you leave the clinic, you will receive the discount. If you do not pay before you leave the clinic, you will be billed for the full cost of the additional services you received. When you receive this bill, it is due and payable upon receipt.

#### PLEASE NOTE

Under State of Oregon regulations, we are not allowed to offer this program to patients being seen for established Workers' Compensation claims. For SureCare visits, we accept payment by cash, VISA, MasterCard, Discover and personal check.
